*3rd year engineering student in Cybersecurity at ENSIAS, interested in cybersecurity, vulnerability analysis, and risk management. Seeking a **final-year (PFE) internship** of up to 5 months starting february **2027** to contribute to high-skates security projects and grow in ademanding professional environment.*

PROFESSIONAL EXPERIENCE

APPLICATION SECURITY INTERN

Office National des Aéroports (ONDA) / Airports of Morocco - Oujda — July ***2026*** - August ***2026***

- Integrated cybersecurity practices into a web application of the airport's Security Management System.
- Conducted SAST/DAST analyses with manual identification and validation of vulnerabilities.
- Prioritized risks according to the OWASP Top 10 and developed remediation recommendations.

CYBERSECURITY INTERN : PAM & BASTION

Trésorerie Générale du Royaume (TGR) - Rabat — June ***2025*** - July ***2025***

- Benchmarked existing PAM solutions for secure administration of critical systems.
- Deployed Apache Guacamole: user management, connections, and access policies.
- Developed MyBastion in Bash, an in-house solution to centralize and control administrator access.

EDUCATION

ENGINEERING DEGREE IN CYBERSECURITY, CLOUD & MOBILE COMPUTING — 2024 - 2027

Ecole Nationale Supérieure de l'Informatique et d'Analyse des Systèmes (ENSIAS) - Rabat

PREPARATORY CLASSES FOR ENGINEERING SCHOOLS - MP OPTION — 2022 - 2024

CPGE Moulay Youssef - Rabat

PROJECTS

- **Cloud VM Security Analysis:** Simulated attacks and intrusion detection using Random Forest.
- **Honeypot & Threat Analysis:** Deployed Cowrie/Dionaea and centralized logs with ELK for attack analysis.
- **SafeHer - Secure Mobile Application:** Android development with Firebase, access control, certificate pinning, and application-level protections.
- **OWASP Juice Shop Hardening:** Developed YARA rules and a Python scanner integrated into a CI/CD DevSecOps approach.
- **Web CTF Plateform:** Designed a Capture The Flag platform for cybersecurity training.

SKILLS

- **Cybersécurity:** Pentesting, Threat Modeling (STRIDE, MITRE ATT&CK), Vulnerability Analysis, Burp Suite, OWASP ZAP, Nmap, Wireshark, YARA
- **Tools & Platforms:** ELK, Kali Linux, Docker, Git, CI/CD, SonarQube, PHPStan
- **Programming & Data :** Python, Java, C, PHP, SQL, Bash, Scikit-Learn, NumPy, Oracle 19c, UML/Merise
- **Systems & Cloud :** Unix/Linux, AWS, Android, Firebase

EXTRACURRICULAR INVOLVEMENT

Conference & Contact Manager at INSEC - INformation SECurity Club

CERTIFICATIONS & LANGUAGES

Certifications : CCNA – Introduction to Networks | CCNA – Switching, Routing and Wireless Essentials

Languages : Arabic, French, English, Spanish (basic)
